

2022 Halifax

JOINT-MEETING

May 18, 2022

Building Linkages and Crossing Fissures Between the Geosciences and Environmental Studies/ Sciences (Drop-in Workshop)

Join us for this drop-in session and workshop and share your thoughts and ideas on the challenges of collaboration and coordination between the geosciences and environmental studies/sciences in academic organizations and conferences. Is there an appetite among your peers for more cross-disciplinary engagement or is the push for greater specialization? What are some of the biggest hurdles to greater integration? What strategies have you or your academic departments utilized to strengthen relationships?

**IN-PERSON ATTENDANCE IS ENCOURAGED
GIVEN THE IMPORTANCE OF THE
INTERACTIVE SESSION**

This session can be viewed by live-stream but will not be interactive if attending virtually. You are strongly encouraged to attend in person.
